

Coastal[®] Dexron[®] VI ATF

COASTAL DEXRON[®] VI ATF is the latest generation automatic transmission fluid approved by General Motors for use in vehicles with automatic transmissions. This unique fluid is specially formulated to provide twice the service life of a DEXRON-III (H) ATF and offers improved performance for new and older transmissions. It is formulated to provide improved oxidation stability, shear stability, friction durability, and wear protection to help meet warranty protection requirements in late model vehicles.

Benefits:

When compared to DEXRON-III (H) ATF, **COASTAL DEXRON[®]-VI** provides the following benefits:

- Extends the life of the transmission
- Improved oxidation and thermal stability
- Enhanced foam control
- Outstanding low temperature performance
- Superior antiwear protection
- Improved torque transfer

Applications:

COASTAL DEXRON[®]-VI ATF is recommended for all 2006 and later GM vehicles with Hydramatic automatic transmissions. It is fully back serviceable for DEXRON-III (H), (G), III and IIE applications. Meets GM specification GMN10060.

General Motors DEXRON[®]-VI ATF license number = J-60318

Coastal[®] Dexron[®] VI ATF

Typical Characteristics:

Coastal Dexron [®] VI ATF	
Appearance	Red, dyed
Viscosity	
@ 40 °C, cSt	29.8
@ 100 °C, cSt	6.0
@ 100 °F, SUS	152
@ 210 °F, SUS	46.3
@ -40° C, max	12,000
@ -30° C, max	3,150
@ -20° C, max.	1,050
Viscosity Index	151
API Gravity	35.6
Sp. Gr. @ 60°F	0.8468
Flash, COC, °F	405
Pour Pt. °F	-65
