Safety Data Sheet

Spindle Oil 10

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: Dilmar Spindle Oil 10
Part Number: DOCSP10-5; DOCSP10-B
Distributor: Dilmar Oil Co., Inc. 1951 W. Darlington St. Florence, SC 29501 800-922-5823
Emergency Phone Number: During normal business hours – 800-922-5823
Recommend Uses: Refined mineral oil blended with zinc free additives for high speed spindles in machine tools

SECTION 2. HAZARD(S) IDENTIFICATIONS

Emergency Overview

<table>
<thead>
<tr>
<th>Appearance</th>
<th>Viscous Liquid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Color</td>
<td>Clear and bright</td>
</tr>
<tr>
<td>Odor</td>
<td>Mild petroleum like</td>
</tr>
</tbody>
</table>

GHS Classification:
Aspiration hazard: Category 1

GHS Label Elements:
Hazard pictograms:

Signal word: Danger
Hazard statements: H304 May be fatal if swallowed and enters airways.
Precautionary statements: Response: P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. P331 Do NOT induce vomiting.

Potential Health Effects:
Primary Routes of Entry: Eye contact
                          Ingestion
                          Inhalation
                          Skin contact

Aggravated Medical Condition: None Known

Other hazards which do not result in classification
No Data Available.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture: Pure substance

Hazardous component(s)

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS-No.</th>
<th>Concentration (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lubricating oils (petroleum), C15-30, hydrotreated neutral oil based</td>

</tbody>
</table>
SECTION 4. FIRST-AID MEASURES

If inhaled: Move to fresh air. Artificial respiration and/or oxygen may be necessary. Seek medical advice.

In case of skin contact: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Wash clothing before reuse. Seek medical advice.

In case of eye contact: Remove contact lenses. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Obtain medical attention.

If swallowed: Rinse mouth with water. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Seek medical advice.

Most important symptoms and effects, both acute and delayed: First aider needs to protect himself.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media: No information available.

Specific hazards during firefighting: Cool closed containers exposed to fire with water spray.

Hazardous combustion products: Carbon oxides (CO, CO2), smoke and irritating vapors as products of incomplete combustion.

Further information: Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, Protective equipment and Emergency procedures: Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions. Environmental precautions: If the product contaminates rivers and lakes or drains inform respective authorities. Methods and materials for containment and cleaning up: Prevent further leakage or spillage if safe to do so. Remove all sources of ignition. Soak up with inert absorbent material. Non-sparking tools should be used. Ensure adequate ventilation. Contact the proper local authorities.
SECTION 7. HANDLING AND STORAGE

Advice on safe handling: For personal protection see section 8.
Smoking, eating and drinking should be prohibited in the application area.
In case of insufficient ventilation, wear suitable respiratory equipment.
Avoid contact with skin, eyes and clothing.
Do not ingest.
Keep away from heat and sources of ignition.
Keep container closed when not in use.

Conditions for safe storage: Store in original container.
Containers which are opened must be carefully resealed and kept upright to prevent leakage.
Keep in a dry, cool and well-ventilated place.
Keep in properly labelled containers.
To maintain product quality, do not use in heat or direct sunlight.

SECTION 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Components with workplace control parameters
Contains no substances with occupational exposure limit values.

Engineering measures: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Personal protective equipment
Respiratory protection: Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Filter type: Organic vapor filter
Hand protection material: Neoprene, Nitrile, Polyvinyl Alcohol (PVA), Viton(R).
Remarks: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Eye protection: Wear face-shield and protective suit for abnormal processing problems.
Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.

Protective measures: Wash hands and face before breaks and immediately after handling the product.
Wash contaminated clothing before re-use.
Ensure that eyewash station and safety shower are proximal to the work-station location.

Hygiene measures: Remove and wash contaminated clothing and gloves, including the inside, before re-use.
Wash face, hands and any exposed skin thoroughly after handling.
SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Viscous liquid
Color: Clear and bright
Odor: Mild petroleum oil like
Odor Threshold: No data available
pH: No data available
Pour point: -30 °C (-22 °F)
Melting point/freezing point: No data available
Boiling point/boiling range: No data available
Flash Point: 175 °C (347 °F) Method: Pensk-Martens closed cup
Fire Point: No data available
Auto-Ignition Temperature: No data available
Decomposition Temperature: No data available
Evaporation Rate: No data available
Flammability: Low fire hazard. This material must be heated before ignition will occur.
Upper explosion limit: No data available
Lower explosion limit: No data available
Vapor pressure: No data available
Relative vapor density: No data available
Density: 0.834 kg/l (15 °C/59 °F)
Solubility (ies): Insoluble
Partition coefficient: n-Octanol/water No data available.
Viscosity
Viscosity, Kinematic: 9.46 cSt (40 °C/104 °F)
2.55 cSt (100 °C/212 °F)
Explosive properties: Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.

SECTION 10. STABILITY AND REACTIVITY

Possibility of hazardous reactions: Hazardous polymerization does not occur. Stable under normal conditions.
Conditions to avoid: No data available
Incompatible materials: Reactive with oxidizing agents.
Hazardous decomposition products: May release COx, smoke and irritating vapors when heated to decomposition.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute Toxicity
Product: Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based:
Acute oral toxicity LD50 (Rat): > 5,000 mg/kg
Acute inhalation toxicity LC50 (Rat): > 5.2 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Acute dermal toxicity LD50 (Rabbit): > 2,000 mg/kg
Skin corrosion/irritation

**Product:**

Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based:

Result: Mild skin irritation

Serious eye damage/eye irritation

**Product:**

Lubricating oils (petroleum), C15-30, hydrotreated neutral oil-based:

Result: Mild eye irritation

Respiratory or skin sensitization
No data available

Germ cell mutagenicity
No data available

Carcinogenicity

**Product:**

Remarks: Not expected to be carcinogenic.

Remarks: Product contains mineral oils of types shown to be non-carcinogenic in animal skin painting studies. Highly refined mineral oils are not classified as carcinogenic by the International Agency for Research on Cancer (IARC).

IARC

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

OSHA

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP

No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity
No data available

STOT - single exposure
No data available

STOT - repeated exposure
No data available

**SECTION 12. ECOLOGICAL INFORMATION**

Ecotoxicity

**Product:**

Toxicity to fish: Remarks: No data available

Toxicity to daphnia and other aquatic invertebrates

Toxicity to algae: Remarks: No data available

Toxicity to bacteria: Remarks: No data available

Persistence and degradability

**Product:**

Biodegradability: Remarks: No data available

Bioaccumulative potential
No data available
Dilmar Spindle Oil 10 SDS

Mobility in soil
No data available
Other adverse effects
No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues: The product should not be allowed to enter drains, water courses or the soil.
Offer surplus and non-recyclable solutions to a licensed disposal company.
Waste must be classified and labelled prior to recycling or disposal.
Send to a licensed waste management company.
Dispose of as hazardous waste in compliance with local and national regulations.
Dispose of product residue in accordance with the instructions of the person responsible for waste disposal.

Contaminated packaging: Do not re-use empty containers.

SECTION 14. TRANSPORTATION INFORMATION

International Regulation

IATA-DGR
Not regulated as a dangerous good
IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

49 CFR
Not regulated as a dangerous good
TDG
Not regulated as a dangerous good

Special precautions for user
Not applicable

SECTION 15. REGULATORY INFORMATION

OSHA Hazards: No OSHA Hazards

The components of this product are reported in the following inventories:

DSL On the inventory, or in compliance with the inventory
PICCS On the inventory, or in compliance with the inventory
TSCA All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption.
AICS On the inventory, or in compliance with the inventory
IECSC On the inventory, or in compliance with the inventory
ENCS On the inventory, or in compliance with the inventory
KECI On the inventory, or in compliance with the inventory
EINECS On the inventory, or in compliance with the inventory
SECTION 16. OTHER INFORMATION
