

Dilmar Oil  
Company

# Transmissionguard ATF

Dilmar Transmissionguard Automatic Transmission Fluid is an automatic transmission fluid formulated to meet the needs of high performance, multi-purpose, power transmission fluid requirements. It is designed for use in passenger car and light truck automotive transmissions. It is blend of high quality base oils and premium additives that provide outstanding oxidation and thermal stability, friction control, load-carrying ability, corrosion and wear protection as well as preventing the accumulations of deposits and the formation of sludge, varnish, and foam. It provides fast circulation during cold weather and excellent lubrication and performance when hot. In addition it also helps in reducing and minimizing transmission “chatter”.

## Features and Benefits

- Universal unlicensed product that meets prior GM/Ford ATF standards, Allison C4 and other applications calling for use of DIIIH/M quality ATF
- Reduces wear of critical parts
- Outstanding thermal stability and oxidation resistance
- Inhibits foaming
- Provides quiet shifting

Typical Properties		
Test	Method	Results
Viscosity @40 °C, cSt	ASTM (D445)	36.07
Viscosity @100 °C, cSt	ASTM (D445)	7.34
Viscosity Index	ASTM (D2270)	175
Pour Point, °C	ASTM (D97)	<-38
Phosphorus	spectrometer	240
